Benefits

- Cuts cane stubbles below ground level and thus improves germination
- Cuts the old cane root system leading to better growth of ratoon crop and establishment of new root system
- Reduces frequency and duration of irrigation
- Performs inter-culture operations
- Aerates soil structure
- Reduces total cost of production of Ratoon Sugar Cane Crop

Salient Features

High Quality Boron Steel Reversible Blades

These self sharpening blades cut the stubbles below ground level

Adjustable Tines with Small Ridger

Suitable for different sugar cane planting systems

Safety Shield

Protects from stones and other objects, thrown by the blades during field operation

Heavy Duty Gearbox

For better performance and reliability
