

Self Propelled Platform

Harvesting

Pruning

**Model
STMP-26 Ultra**

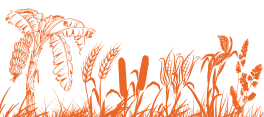

Vertical Gardening

Illustrative Applications

Tree Pruning, Harvesting, Spraying, Tree Canopy Maintenance, Street Lights Maintenance, White Washing, Painting, Colony/Township Maintenance/Cleaning, Industrial Maintenance, Civil Maintenance, Electrical Maintenance, Vertical Gardening.

Advantages

- Operator can pluck the fruits and store them in bucket, thus avoiding damage to fruits from falling down.
- It increases productivity compared to traditional climbing.
- Spraying becomes more easy and effective by spraying from top of the tree.
- Power operated tools replace traditional tools for easy and faster pruning and lopping.
- Designed to suit all type of weather/terrain conditions.
- Designed for simplicity of use (Which allows machine to be operated very easily)
- Rugged Construction (To withstand harsh working conditions)
- Self-Propelled (Allows machine to move on its own)
- Hydraulically driven (Makes machine almost maintenance free)
- Extra Wide Tyres (For extra, stability, grip, ease of movement & optimum drive power utilization)

Self Propelled Platform

Hydraulic Lopping Tool

Hydraulic Chain Saw Tool

Technical Specification

MODEL	STMP-26 Ultra
Machine Weight (Kg)	1900
Working Height (mm)	8000
Platform Size (mm)	510x510x950
Platform Load (kg)	145
Overall Length (mm)	7900
Overall Width (mm)	2650
Platform Capacity	Single Operator
Max. Hydraulic System Pressure	180 bar
Max. Hydraulic System flow	27 litres
Fuel Tank Capacity	16 litres
Hydraulic Oil Tank Capacity	20 litres
Engine	22 HP Water cooled diesel engine
Tyre Size (inch)	31x15.5x15

The company reserves absolute rights to modify the specifications of machine and components therein without any prior notice. The Actual Machine can be different from the picture shown.
